Subject: vehicular speeds

as we are subjected still to the BC Liberal fall-out - 50 k+ heightened speed limits, province wide:

have no place on quiet island roads: recommend speed limits for vehicular traffic return back to the 30k

island - wide

school children, bicyclists, walkers and horses are a regular and especial presence to the safety to island communities:

vehicles, racing by @ 50K, seriously dangerous, a hazard. I hold no truck for racing vehicles, which have drove me on my bicycle into a ditch,

children scattered, pressed into the side brambles, so locals and visitors can race by! way to go, BC Liberals and ISland Trust Council

for adopting such measures. I don't expect you will bother to consider this, until "killed by a car" hits your register.
