Subject: Draft Policy Statement

Dear trustees

I am writing in favour of the changes you are proposing in your draft policy statement plan. I think the shift to a less settler and less human perspective and more focus on inclusion, effective climate action, and the ability to take a more active role in issues such as housing are excellent.

I am particularly pleased to see the emphasis on Indigenous knowledge and the precautionary principle in decision making.

Count me as an enthusiastic supporter of the good changes you are making.

Thanks

Jan
