Subject: RE: Your view and support

Hello,

I introduce myself in form as support and caregiver to the Island Trust of Canada. Fires of Compassion brings to you Earthstewardship in care of land and oceans. With your support we would like to ensure that the Island Trust define itself as inclusive and clearly in support of our local trust area. Please ensure that the Bowen Island Municipality not be responsible for the whole, and please do consider being inclusive of all islands around Bowen Island.

This is a very important time as we have grown in need of gathering and care for all indigenous people.

We hope to hear from you.

Denise Richard

Earthsteward and counsel.
