Islands Trust Council at islands2050@islandstrust.bc.ca
Re: Review of the Trust Policy Statement

Dear Trustees:

Friends of the Gulf islands Society is dedicated to ensuring that the Islands Trust upholds its original purpose, to protect the natural environment and rural character of the Trust islands from overdevelopment. Our society has over 100 members and over 300 people subscribe to our monthly newsletter.

We are hereby submitting to you the results of a petition we circulated regarding priorities for the Trust Policy Statement. The petition now has 1,806 signatures. Attached is a list of those who have signed.

To: Elected Trustees of the Islands Trust & Minister of Municipal Affairs: Christine Boyle

We request that the new Trust Policy Statement not be approved until it:

- affirms that the term “environment” in the legislated Object of the Islands Trust Act refers to the natural environment and does not include residential development and infrastructure;
- affirms that the Islands Trust’s top priority is protection/preservation of the islands’ land and marine ecosystems, and rural island character;
- contains directives that require each island to establish development limits;
- requires each island to limit development to that which can be supplied with drinking water from that island while providing adequate water for natural systems;
- requires each island to produce a build-out report that determines its maximum population if all existing lots are developed and subdivided;
- requires that decisions allowing more intensive use of land and water be guided by independent, up-to-date scientific data, local knowledge and traditional Indigenous knowledge and practices.

We ask that you give these requests your most serious consideration.

Sincerely yours,
Maxine Leichter, Secretary
Friends of the Gulf Islands Society

cc: Minister of Municipal Affairs, Christine Boyle
