Subject: OCP Vision Statement Rewrite

Gabriola Island OCP Vision Statement

The Islands Trust honours the original vision of the BC government when it declared in 1974 that the mandate of the Islands Trust is to Preserve and Protect the fragile island ecosystems from over-development.

We respect both past and future inhabitants of this land - knowing we are all connected.

We recognize that Nature will determine the future of the Islands and we work with the land, animals and each other to adjust to our changing world. As we care for the land, we heal ourselves.
