Subject: Draft OCP Vision Statement
Would this be of use?

By 2050, Gabriola Island will be a resilient and sustainable rural community where people value active engagement in community affairs and respect all cultural heritages and practices. The natural, biodiverse environment will be protected while balancing the availability of beneficial livelihoods and housing options.

Gabriola community members will share a strong sense of belonging and care, experiencing effective health and social services, functional transportation, vibrant arts and culture, sustainable food systems, and collaboration among residents, First Nations, and all levels of government.
