RE: DVP Application for:

Lot 4, District Lot 33, Galiano Island, Cowichan District, Plan 15378

We, the undersigned maintain our objection to the granting of this Development Variance Permit on the basis of our complaints presented at the LTC meeting of February 2024. Furthermore we understand there are many more outstanding violations, as presented by [REDACTED], that need to be addressed and resolved in their entirety before a DVP is issued. Since most of the violations have been present for many years why has the Islands Trust not enforced their rules before now, 2024?

Yours truly,

Richard and Dorothy Beauchamp

Residents at [REDACTED] Galiano Island
