Subject: Zoning application, PLRZ2024003

I am writing to offer my support to Leif Palmberg's zoning application, PLRZ2024003.

Leif has proposed three ideas which Galiano Island and residents will benefit from:

- 1) The production of apple cider - supporting local food production
- 2) Small sawmill - production of local lumber
- 3) Storage of aggregate materials - required for septic systems, foundations, driveway surfacing and fire smart non combustible landscaping

Leif is a family person, resident and responsible young entrepreneur of Galiano Island.

Please consider supporting Lief's proposed use of this property.

Sincerely,

John F. Hatch
