

February 1, 2016

To the Galiano Island Local Trust Committee,

I am speaking to support the application of Crystal Mountain Society to rezone their forest zoned land to create a meditation retreat and teaching centre in the forest.

I have lived here for 22 years and actively participated in the forest zone review meetings at different times.

I have attended teachings and have worked with the Crystal Mountain volunteer group to restore and maintain the land.

I know they will be good caretakers of the forest while operating a place that will be of great value to many people.

Thank you for your consideration,
