To Whom it may concern:

I have lived on Galiano Island for over 40 years. I live in the North End of Galiano & I am a neighbour of Crystal Mountain (Meditation Retreat). I understand that Crystal Mountain is applying for a re-zoning of their property, for development. I have several concerns as living next door.

One is that Galiano's O.C.P. which took us many years & a terrible split in the community to come to a compromise. There are so many concerns with such a large scale development - water, sewage, parking, more cars on the road. A covenant on the land needs to be looked at more carefully, I am afraid we are setting a precedence. Most of all I would like see the whole development scaled down. Too many huts etc.

Thank you

Susan Friend
