**Subject:** Crystal Mountain Society Rezoning

Dear Local Trust Committee Members,

I am writing to offer complete support of the Crystal Mountain rezoning proposal.

I have had numerous opportunities to partake in interactions with the many people involved with the Society and have always found them to be extremely respectful of our Island values, and ever willing to share their knowledge and understanding of Buddhist teachings with whomever might be interested.

The rezoning proposal is sensitive to the character of island life, and represents a huge asset to our island community's multi-diversity and well-being.

Best regards,  
Sandra Dolph
