Having attended a meeting on September 25, 2016, organized by CMS to hear neighbours' concerns, and after reviewing their pledges to find solutions, we are not persuaded by their assurances or proposals. We continue to be strongly opposed to re-zoning and development of their Forest lot. Our position as stated in our letter of August 31, 2016 is unchanged.

We are in agreement with the issues raised by [REDACTED] in her email to you on November 3, 2016.
