As a full-time resident and property owner since 1989 I write to express my concern about the proposed rezoning of the Crystal Mountain forest F1 lot.

The proposed rezoning and all the amenities to be provided for visitor accommodation resulting in the carving up and fracturing of this forest lot is reprehensible. It is totally against our Official Community Plan. Concerns about neighbouring groundwater, transportation, climate change, carbon footprints and the fragmentation of a forest lot are valid. By no stretch of the imagination does this intended travesty of a forest F1 lot come under the preserve and protect mandate of the Islands Trust.

This rezoning application should be denied.
