Cowichan Tribes 5760 Allenby Rd: Tracey Flemming <i>Comment: No Comment Received</i>	23-Apr-2021	
Galiano Island Fire Department RR #2, Site 46 Comp 23: Karen Harris	23-Apr-2021	
Galiano Trails Society Galiano Trails Society: Bowie Keefer <i>Comment: Approval is strongly recommended, as the spiritual retreat and education roles of Crystal Mountain are very much needed in these troubled times, and are entirely consistent with the ecological and social protection missions of the Islands Trust. It is noted favourably that the proposal includes large donations of forest land to the Islands Trust Conservancy and substantial funding for management and restoration of that forest land. This donated land is contiguous to District Lot 87, which is part of Dionisio Point Provincial Park and expected to be joined solidly to the main area of the park when presently contemplated rezonings of District Lots 85 and 86 are completed. The Galiano Trails Society is working closely with BC Parks and the neighbours on adjacent Lots B and C of District Lots 88 and 89, and is very comfortable with the willing and harmonious collaboration of all parties including the Crystal Mountain Society. Additional information is provided in my covering email.</i>	23-Apr-2021	20-May-2021

<p><i>Comment:</i> Lyackson First Nation is in receipt of your email and attachment dated April 27, 2021, regarding the above-noted referral. As has been communicated to Islands Trust, any request provided by any government agency or proponent for Lyackson to review information associated with referrals that have the potential to further infringe on our Rights and Title must be accompanied by provision of adequate capacity funding to allow for us to conduct a thorough review and adequately respond. As you have not provided Lyackson First Nation with adequate resource capacity to enable meaningful consultation, your duty to consult cannot be fulfilled. Lyackson First Nation recognizes this referral as being in the Hul'qumi'num Treaty Group's Statement of Intent area. Lyackson First Nation has/had key harvesting, hunting and culturally significant sites within this area. Lyackson First Nation has inhabited the Cowichan and Chemainus valleys, Gulf Islands, and the lower Fraser River since time immemorial. Our intention is to continue to take up and take back the roles, responsibilities and authorities over our territories and waters. We recognize that the land, the sea, and the people are interdependent and holistically interconnected. Structures and boundaries imposed by colonial institutions ignore our connectedness and have never worked for us. It is our responsibility to ensure the wellbeing of our relatives according to our teachings. You should further be aware that meaningful consultation requires dialogue and shared decisionmaking. According to our snuw'uyulh, we are expected to exercise care in our use of the natural world and to act in 'uy' shqwalawun with all things. We have our own protocols that respect our traditional ways of being that we bring to this work. We do not support the proposal to amend the land use designation as the proposal does not clearly set out how the zoning will respect our traditional ways of being or support our traditional cultural practices.</p>
