Subject: re your cancellation and postponement...

To Tim Peterson

Grant Scott

Alex Allen

Margot Thomaidis

In following up on your most recent surprise move, i.e. your cancellation of our in person LTC meeting on Nov 3d and its postponement to Dec.13th, just a few days before Christmas holidays, we fail to see how the word TRUST can apply to your handling of the Rogers Tower application for Hornby Island, especially as your ears seem to be closed to the concerns of those who are directly affected by your actions.

The Islands Trust's ongoing efforts to subvert our democratic process; your efforts to preserve and protect not our , but corporate interests- confirm our opinion that Trust is indeed an undeserved title, yet to be earned by you.

What are the reasons for cancelling so suddenly our in-person LTC meeting and defiling our democratic process by changing it ,yet again, to a Zoom "meeting" not available to all islanders, as you well know ?

We are also wondering, if you don't mind : Are you, Mr. Petersen, working for Rogers? Or the Islands Trust ? Or Hornby Island? Can you please clarify the apparent contradiction of two personal statements you made during one of your internal IT- conversations : (I paraphrase) *I don't have a problem with cell towers.* And one made on Hornby , addressing two different islanders: (I paraphrase) *I would never want to see a cell tower on Hornby Island?*

We await your response within a sensitive time frame.

Sincerely.

Rex and Christiane Brown, Hornby Island
