Subject: Port Washington Road

I want to share my opinion about the rezoning of rural land to industrial on Port Washington Road.

That action would add further devastation to the natural environment, and especially water

We are already on wells that are challenged in the drought seasons that we are experiencing.

We simply cannot afford to have more draw on our underground streams.

Not to mention the roads that are already challenged by immense trucks that are constantly using them.

The people and the environment and the infrastructure will be impacted in negative ways.

Thank you,

Blou MacKeigan
