Subject: Big Dig 'em support letter/rezoning application PLRZ20240110 Bigham/ 3334 Port Washington Road

As homeowners on Pender Island we support Big Dig 'Em in their business endeavours in the rezoning application PLRZ20240110 (Bigham) / 3334 Port Washington Road.

As a service related business, Big Dig 'Em is crucially important to the Island because they provide the specialized services of trucking, septic systems and road construction. They are always prepared to assist homeowners and community residents for their needs in road construction, gravel deliveries and equipment rental. In the case of an emergency, where we be without their help in trucking and road building?

They run a neat and tidy operation at 3334 Port Washington Road in what we consider the industrial complex on Pender Island where road maintenance such as Emcom, BC Hydro and the hardware store are located, its convenient. I don't know where else on this Island they would be better served.

Please consider the residents served by Big Dig 'Em when rezoning this land, are the residents best served by allowing this vital business to continue in this fashion? We believe so!

Thank you,

Monique Duhamel
