

RE: The Survey of Policy
Directions - Islands 2050
Phase II.

BC VON IPO
February 5, 2021

Dear Friends at Island Trust Council

We sincerely apologize for being late since today is the deadline but at age 80 years we do not use a computer and always use Canada Post to keep it in business. Thank you for helping our fine Galiano Trustee (president) to be able to print out a paper copy of all your materials for Islands 2050 to give us.

We moved to Galiano in May 1970 to be full time residents and have been supporters of the Island Trust since its inception.

The current Island Trust Policy Statement of 2003 is such a fine reassuring document.

In your packet of materials which Jane prepared for us we have been greatly encouraged by all the suggestions proposed as new policy directions under the 3 topics of Climate Change, Affordable Housing and Reconciliation. We firmly support

all of the proposed changes). The ideas are creative and excellent and form a fine future foundation for the preserve and protect mandate on which the Trust stands.

We thank everyone at the Trust Office for the careful and lengthy work done in preparing the Islands 2020 materials. The graphics used are colorful and so well planned and educate with clarity.

Sincerely yours,

Greg and Sharon Foster
