Subject: Proposed Changes to the Islands Trust Policy

Dear Sir or Madam

Our family are new arrivals on Salt Spring Island and own a large piece of property. Our intentions are to leave our property relatively untouched however we have only just started to learn of its unique features. Equally new to us are the policies and procedures of the Islands Trust.

We are responsible people and are aware of how important it is to have a government body to protect and safe hold this exceptional area.

However having recently been made aware of some significant proposed amendments that will significantly change the Islands Trust Policy, we must protest. We implore you to halt this process so we can have meaningful consultation with all the affected residents.

Sincerely,

Kerry Dyer
