Subject: Letter to Trust Council for the July 7-8 meeting

Dear Trustees,

At the beginning of your meeting on July 8, you will be considering the motion brought forward from the June Council meeting:

"Trust Council affirms its understanding that preservation and protection of the natural environment is central to the mandate of the Islands Trust and that this responsibility must be given special and profound consideration in all our decisions and in all we do."

A third draft will be required to capture in policies and directives policies, the essence of the motion, should it carry.

Therefore First Reading to Draft 2.0 is premature. It is unfortunate that the Islands Trust Press Release is taking for granted that First Reading will be given.

Do the "over 100 provincial and federal agencies, organizations....." review Proposed Bylaws twice?

My humble recommendations:

- Send the TPS Re-write to a Draft 3 (assuming that the motion on the "preservation and protection of the natural environment" carries)
- Send Draft 3 to the LTCs, and the First Nations in the Salish Sea and to **"the province generally"** for consultation until October.
- Incorporate the resulting changes into a Fourth Draft to be considered for First Reading at the December Trust Council meeting.
- Send the Proposed Bylaw to the Agencies et al...
- Consideration of Second Reading after review responses received. If given,

- Community Information Meeting, Public Hearing & consideration of Third Reading. If given,
- Send Proposed Bylaw for approval by the Executive Committee of the Islands Trust. If granted,
- Send the proposed Trust Policy Statement Bylaw to the Minister of Municipal Affairs for her approval. If granted,
- Consideration of final approval

Respectfully,
Jacinthe Eastick
