Subject : ISLANDS TRUST POLICY STATEMENT

TO: ISLANDS TRUSTEES

Peter Luckham, Chair: (Salt Spring Island Trustees) - Peter Grove & Laura Patrick

We have received A. Information Sheet (via Mail Box delivery) and B. June 23/21 Driftwood Article "Policy Update Alarms Islanders". WHAT IS GOING ON HERE. This is the first we have learned of such sweeping proposed changes to the above noted Policy Statement. How can this possibly reach the "First Reading" stage without ALL Island Communities being fully apprised of content and communications. This is an affront of your elected obligations. As this is the first time we have been made aware of what is going on - so don't tell us that the Islands Trustees (Saltspring) have been actively informing the public. To Laura Patrick (quote) "It is the right way to go forward" ie 1st Reading - IT IS NOT. Also What does 2050 Project Timeline mean? We have been property owners for 28 yrs on Saltspring and we wish to make it clear that at this stage in the history of the Trust Area - your energy should be devoted to **Water, Housing, Infrastructure** without which the Islands will surely decline.
