

Islands Trust

Attention: Mr. Kees Langereis
Mr. Scott Colbourne

Dear Sirs:

July 5/21

I am writing to ask for a pause in the proposed revision of the Islands Trust Policy statement.

I feel it is being rushed through at an alarming rate without enough community input and transparency.

It is my and many others opinions we need a referendum.

It is not right that such major decisions be made by so few for so many people.

There is not enough transparency in the planning and development proposals.

Gabriola depends on groundwater and not enough unbiased field investigations has been done

We already have major water problems.

Rushed through development plans for special interest groups are only going to exacerbate this and help destroy the Islands natural ecosystem.

Thank you
Kathy Logan

Gabriola Is. B.C.
