**Subject:** Please defer First Reading of Islands Trust Policy

Dear Staff and Trustees

Please add my voice of strong objection to the proposed First Reading of the new and radical Islands Trust Policy Statement to tonight's meeting. The first reading **must be delayed** until proper in person public consultation can be achieved at a local trust level on each island. Rushing through such a major change to landowners' rights without detailed consultation during a pandemic is unacceptable, including, but not limited to the restriction of any new (and existing???) docks.

Sincerely

Craig Wilshire

[REDACTED]  
Galiano.

**Subject:** Policy statement question

What is the harm in deferring the first reading of the proposed islands trust policy statement now that the details have raised significant backlash across numerous fronts? Should this guiding principle of land use covering the next 30 years, not be well thought out and "get it right", instead of rushing it through because of term limits of trustees and the perception of waste if hard work by some staff?
