Subject: You are going too far and do not represent the majority of local island families

- 1- I never write my MLA but in this case I have.
- 2- The locals have done a good job of land stewardship as the Island is 3/4 trees
- 3- Basically you are screwing up a beautiful balance of nature and people with heavy handed bylaw enforcement turning neighbours against neighbours, I work all over this Island and nobody is in compliance.
- 4- People live on these Islands because of the freedom they have represented, however you just keep making more rules. Its like we live in Vancouver.
- 5- As always a vocal minority with nothing but time on there hands are driving an agenda that doesn't represent every day people as we are too busy raising our families
- 6- When guys like me take the time to write and are never vocal get involved you may find that this community who you represent will resist.
