**Subject:** New Policy Statement

As a twenty year resident of Gabriola, I am incredibly frustrated by the mishandling of the Policy Statement update and the budget process for 2022.

This current cycle's trustees should do nothing more than deeply engage with their constituents and then allow the next election cycle to provide a clear mandate for the actions that will be implemented.

You are all placing the Islands Trust into direct conflict with a significant percentage of your constituents and your disregard for their voice is increasingly apparent.

Regards  
Richard Nolan
