Second issue. Please forward if received

NEW TRUST POLICY STATEMENT

**Having been an enthusiastic Reid Islander for over 40 years I appreciate the effort by Islands Trust to preserve and protect this wonderful area. In conjunction with the CRD and Province of BC the Trust has done an excellent job of this mandate. Having said that I am confused and cannot understand any reasons for a revised Policy Bylaw.**

I therefore ***cannot support the revisions incorporated in the Draft Policy Bylaw (#183, July 15,2021).***

The Islands Trust should continue to be involved with land use planning, review of development applications and issuance of permits which remain of significant importance. Any additional duties would over lap with those of other jurisdictions and complicate a system that has been operating very well.

Thank you for your initiative and look forward to many more years of smooth sailing.

William Lloyd-Jones  
Reid Island
