Subject: Budget

To whom it may concern,
I feel that the Islands Trust is overstepping their mandate. I, like many, filled out a poorly advertised survey. I came across it by accident. This doesn't give you a very good picture of the opposition to your proposed budget if the majority of islanders didn't even know about it. At this point I do NOT trust you to do what is in the best interests of islanders and it may be time to stop and LISTEN. I do not want any increase in your budget. If anything there should be a reduction in your powers especially those areas that are already controlled by other levels of government. Sincerely, Mrs. Sullivan
