Hi Jane,

Thank you so much for your speedy reply, and access to that document.

I am personally very concerned about -  
4.6.14 - as I commute to work by boat and do not have a dock.

I will explain my personal situation since I assume (perhaps incorrectly) the majority of new dock applications are desired for recreational purposes. I was hoping to submit a dock application in the near future for parking for my boat which is my vehicle for commuting to work. As you may know I work on Salt Spring and reside on Galiano.

I am lucky enough to have neighbours at the moment who allow me use of their dock. However, as my once full time resident neighbours have both passed away and I am actively watching their children fix the place up to sell I'm increasingly seeing the necessity of access to new moorage options.

Without meaningful access to a community dock (montague for example has a multi-year wait list for full time moorage) I (and others) may be unable to continue commuting between the island for essential travel (in my case - employment).

The prohibition of all private docks on Galiano without the existence of either  
1. Meaningful inter-island ferry services &  
2. Access to moorage services seems unacceptable and short sighted.

Thank you,

Anik

**Subject:** Revision of the Island Trust Policy Statement - PLEASE DELAY

Dear Local Trustees,

As full time residents on Galiano we, like many others, would like you to delay the revision of the Island Trust Policy Statement until meaningful consultation with affected residents can take place. We would like the first reading of this major land use plan to be delayed until after input can meaningfully be achieved at the local level (for us, on Galiano with residents and local trustees). It is our opinion that it is inappropriate that the scheduled July 8th reading of this policy change go ahead as there has been no public consultation or advertising for discussion at the local trust level - as would normally occur.

Thank you for your consideration,  
Respectfully,

Anik Mommsen-Smith & Leif Palmberg
