Subject: The Name:

The words , “Islands Trust” are two separate words and only have connection in space .

The inference is that there is a connection between them.

To be more explicit and descriptive as a title that describes implicit and intrinsic reality the title would most aptly be:

Islands’ Trust

This form does not infer simply by juxtaposition of 2 words but demonstrates the intrinsic reality of the 2 word association.

Therefore I would recommend the name be changed to this form displayed since it describes the reality in no uncertain way.

I can see no reason that would be successfully contrary to this conclusion and suggestion.

Keep well and preserve the highland forest watersheds, Stewart Brands. Galiano Island.
