**Subject:** Help Save the Gulf Islands -

Hello Islands Trust people  
I have lived in the Gulf Islands for over forty years and have seen relentless changes to the biodiversity of these Islands -

It is urgent that:

- The Trust Policy Statement place top priority on protecting the natural environment of the Gulf Islands and surrounding waters, and to preserve rural character.
- Directive statements in the Trust Policy Statement must be **required** with no "opt out" policies in another document.
- That **no** further increases in zoning be allowed in areas where overall ecosystem health is threatened, or where the quantity or quality of fresh water supplies for already-approved development may be adversely affected.

Please act to preserve and protect the Gulf Islands

Lisa Baile
