Subject: Proposed changes opposed by most residents

Please add me to the list of those who disagree with the proposed changes regarding the island where we live and have a community.

I do not support the proposed revisions to the TPS for agriculture, farming and livelihoods in particular.

I feel strongly that the people who live and work on these islands, and are a close knit community, be encouraged to have a say in any changes. The proposed increase in taxes and beurocratic structure is unnecessary and will have a grave negative impact on the economy in the islands.
