Dear Denman Island Planners and Trustees

I have lived on Denman Island for over 40 years, have raised children here and been an active member of the island community serving as a paramedic and volunteer for island initiatives. I have also worked off-island as a lawyer, a university teacher (Law; First Nation Studies; Women's and Gender Studies), and a program developer at West Coast Environmental Law. I write to you in support of the 3 Ravens Housing Co-op.

I have reviewed and considered the proposal and have also toured the property. I appreciate the care the proponents have taken with regard to environmental and social matters and the de-commodification of land.

I urge you to use your privilege and power to support the proposal for rezoning and allow the project to proceed.

Yours sincerely,

Maxine Laqwa Matilpi, JD, LL.M

Denman Island,
[REDACTED]
