Dear Denman Island Planners,

a p.s. re 3Ravens .. . Last night after sending my letter, I had an epiphany, thinking about the few times we have in our lives to make a big difference, to do something really good or in the words of ecofeminist/philosopherJoanna Macy, contribute towards the "Great Turning."

Years from now you might look back and see your support of this rezoning with satisfaction and pride for being a good ancestor.

/Maxine Matilpi.
