Subject: Full Support for 3Ravens Land Coop Project

Dear Trustees,

I have read and fully support the 3Raven's project--a vital proposal providing desperately needed affordable housing--especially since by cutting \$1.4 billion from affordable housing projects, the provincial government cannot be counted on to support projects like Denman Green that were shovel-ready.

The success of the Coho Landing land co-op is a successful precedent that should help to win approval for the 3Raven proposal.

Respectfully,

Sharon Small
