Subject: Support for 3Ravens Affordable Housing Land Share Project

Sam and Dave

We have read and understand the 3Ravens affordable housing application and fully support their project.

Some people say that we live on an island of dreams. Developers and speculators dream of economic gain and material wealth, while humanitarian affordable housing advocates dream of economic diversity and a wealth of social justice.

The LTC for its part should not make decisions that reinforce predatory real estate wheeling and dealing or the NIMBY privileges of the oppositional few, but instead should encourage the cooperative dreams of community which are the true wealth of any society..

With those LTC priorities in mind, you must act to enable the realization of the land sharing dream of Tara Parkinson and Paul Weyer by not only approving their rezoning application but publically applauding the ecologically sound and community-minded nature of their generous proposal.

We urge you to take the high road!

Ron Sakolsky and Sheila Nopper
