

Dear Denman Island Planners and Trustees,

I have read and understand the 3Ravens affordable housing application and met the proponents of the project. I enthusiastically support this project.

Land sharing projects like 3 Ravens, seem like one of the only viable options for many families and individuals to ever experience housing security given current land and housing prices. Having affordable, healthy housing for all makes a stronger community.

The price point for a coop share at 3Ravens of 1 yearly median income for Denman Island is a commendable offering to allow for affordable housing security and I commend Tara and Paul for their leadership in seeking to share their property at this very affordable rate. These types of secure housing offerings are needed in order to maintain a diverse and vibrant community on Denman Island. I ask that the Trust Committee supports individuals like Paul and Tara who are thinking outside of the box to offer secure affordable housing.

Thank you,

Noah Ross

Denman Island
