

To whom it may concern,

I am writing this letter to voice my enthusiastic support for the proposed 3 Ravens Land Cooperative project.

I am a neighbor directly adjacent to Coho Landing Housing Cooperative. Housing Co-ops are good neighbors.

The people who are seeking permanent and affordable housing in our Island community are families, seniors, volunteer firefighters, health care workers, musicians and artisans, small business owners, construction workers, staff at local businesses, childcare providers. People living and working on this island are hard working people that uphold the functioning of this island community, yet have no stable place to call home.

In a climate of a current housing crisis, inflation and economic uncertainty now more than ever, I feel that it is important to support affordable and non-market housing options.

I hope that the decision to create the 3 Ravens co-operative is approved.

Sincerely,

Megan Babb
