

3Ravens Statement of Support Petition

Dear Denman Island Local Trust Committee Trustees and Planning Staff,

We, the undersigned residents of Denman Island, urge the Islands Trust to recognize the affordable housing crisis on Denman Island as an immediate community emergency.

Too many people who contribute to this island — including workers, families, seniors, caregivers, artists, young people, and long-time residents — are struggling to find secure, safe, healthy, legal, and affordable housing. Without meaningful and urgent action, Denman risks becoming a community that only the wealthy can afford to live in.

We strongly support the 3Ravens affordable housing land-share application as part of the solution. Projects like 3Ravens help preserve the diversity, compassion, creativity, and community spirit that make Denman Island our home.

We call on the Islands Trust to give the 3Ravens rezoning application prompt and constructive consideration and to support affordable housing solutions that allow people of all incomes and backgrounds to continue living on Denman Island.
