Subject: Support for 3Ravens

Dear Denman Island Planners and Trustees,

I have read and understand the 3Ravens affordable housing application. I am writing to share that I am in full support of this project here on Denman Island.

I was lucky to be friends with one of the cofounding members of CoHo and have had the opportunity to watch the land grow. I agree with rain water catchment, proper grey water and compost toilet system setups. Having a cap on co-op-share's, and most importantly, how they value each other, personal space & their little community. I was told 3Ravens values the way CoHo works and wants to adapt their living system to protect the wellbeing of the land.

As you know, this project would help provide eight long-term homes for members of the community. Including personal space to establish & set long term roots. Especially by owning your own home, having gardens, trees between neighbours, art space, family space and knowing you are tucked into a part of a co-created land share community.

The 3Ravens co-op would be a substantial addition & opportunity for folks who otherwise don't have any other options to secure longterm housing. Other than continue to hop around when each landlord decides to sell or passes on.

Please encourage your fellow trustees to help push this project forward.

Thank you for your time,

Paj Moon & Ani Lewis
