Subject: 3Ravens

Dear Islands Trust,

I am writing to express my full support for the 3Ravens project. Affordable housing is so hard to come by on Denman and finally 3Ravens is offering this opportunity to make below market value rentals available. When this project is approved it will make a real difference for the folks on Denman who can access housing.

Personally, I know several people who would like to stay on Denman but who's housing situation are precarious. These are individuals who contribute greatly to the community both through their work and in volunteer capacities and if we continue to fail to make housing available it will effect not only those individuals and families but the whole community negatively.

Thank you for ensuring that this project moves forward.

Warmly,
Emily Guinane
