Marny Eggen,

In the interest of harmonizing Municipal and Provincial enactments and policies, I believe that consistent language will reduce the occurrence of conflicting statements and help to expedite the adoption of this legislation.

Therefore, I propose that the word “wholly” be deleted from the sentence defining “feedlot,” as it is not used in Provincial legislation, to the best of my knowledge.

Regards, James Noakes

References

From the proposed amendment bylaw 229:

ii. “feedlot means a fenced area where livestock, poultry or farmed game are confined solely for the purpose of growing or finishing, and are wholly sustained by means other than grazing, but excludes confinement of animals for domestic purposes;”
