To the Islands Trust,

Objections have been raised regarding proposed 228 and 229. One example is the letter of concerns by the growers and Producers Alliance, Adding the crop cannabis to the definition of intensive agriculture is problematic. Please do not proceed with this bylaw too quickly to allow more understanding and adjustments.

My family has owned a farm here since 1970. This is of great interest to farmers, and is a busy time for us. Thank you
