Subject: Feb. 6-23 Final Consultant Report on Farm Plan implementation

Hello Trustees,

I will not be able to attend the Feb. 7/23 LTC meeting due to a time conflict with a commitment set November 2022.

I have read the proposed bylaw and OCP changes for land designated ALR plus. It appears that the Trust mandate has shifted from land use to use land.

I could not find the final report of the consultants. I attended the June 2022 community meeting along with 6 other members of the community and sat through a pre-report based solely on on-line responses. As the consultants acknowledged, they only picked up the written/paper submissions on the way to the meeting. As a result, I hoped to see the 60+ written survey responses incorporated in a final report. I can't find a final report on the Projects website. As the owner of ALR designated land with farm status, I have an interest in this project and its results.

Please send the final report to my email address (above) and, in courtesy to the community, attach it to the Feb. 7/23 agenda package.

Thanks.

Harlene
