Subject: Rezoning PLRZ20240003

Dear Galiano LTC, I'm sending this email to show support for Leif Palmberg's rezoning application at 832 Galiano way. I grew up in this neighborhood and know the lot and the area very well. I think that this location is an ideal site for this proposed rezoning and feel that this would be a great benefit to the island as well as the neighborhood. Having grown up here, I saw most of my friends and classmates move away to find work and make lives for themselves. I think it's very important to allow people to have places to operate businesses that provide the island with these important services, and try to create a strong local economy. Hopefully with more businesses like these operating here, future generations will have more opportunities to work here and thrive here. Please approve this rezoning. Thank you.

Riley Coburn
