I was going to mention a few pump house and boat house stats, but Chris Phillips was on top of it.

I will take your advice to provide comments early and often on the draft foreshore document, and ensure other Plumper Covers are in the loop.

Cheers for now.

Oh and good luck with that Gambier cabin development issue.

Regards

Chris Ritchie

Hello Islanders . The next meeting of the Gambier Island Local Trust Committee (LTC) will be on Thursday February 4th commencing at 10:30 AM. We are continuing these meeting virtually. All the information you need to join or observe the meeting is here . <http://www.islandstrust.bc.ca/islands/local-trust-areas/gambier/meeting-calendar-agendas-minutes/>

Please note two items. First, there will be a Public Hearing related to a rezoning application. (Notice attached to this email.) The material related to the Public Hearing is separate from the Agenda in the Public Hearing Binder. As per the notice, you can submit comments during the hearing or in writing before.

Secondly, please note the staff report regarding the Keats Island Foreshore protection project of the LTC. This reports builds on the work of the Keats Foreshore working group of the past 18 plus months. The LTC will now be considering what steps to take in response to the report, community feedback and the work of the group.

As always, there will be opportunity in Town Hall for public comment (as well as during the public hearing).

Regards

Dan
