Subject: proposed Keats Island bylaw

Hi,

I'd like to add my name to those protesting the proposed change for development permits for the affected regions on Keats Island, from 7.5 meters landward from the high tide line to 15 meters landward from the high tide line.

I hope your committee will reconsider this change.

The effect of this, requiring us to get permits to trim trees/bushes to retain views, is clearly to take away views from many island residents. What possible rationale is there for this?
