Thank you Dan

Will be online Wednesday and also 14th October.

Appreciate what you do for Islands Trust and Keats.

As a Professional Geoscientist I am interested in the data that informed the regulations as our island is dominated by bedrock as a shoreline and many of the proposals are contemplated for an island with much more accessible beach shoreline.

I'll have more geomorphology questions ahead of the Oct 14 meeting.

Regards

Bob

It was unintentional and I did send out a correction. It is Wed the 29th. I expect some of your concerns may get answered (ie it is our responsibility to zone) although you may still be opposed.

Thanks for writing g

Dan

Dan

As an owner of 4 10-acre Keats Waterfront lots I oppose these bylaws. The federal and provincial regulators already oversee shoreline activities. We don't need a local body like Islands Trust that may not have the competencies, to regulate these bylaws effectively and without bias and prejudice.

And why the confusion on the date: is it Sept 29 or Thursday Sept 30. I presume this was unintentional.

Please advise the correct date and perhaps circulate to all Keats Islanders.
