Subject: Foreshore Protection Keats Island

Good evening,

In preparation for tomorrow's bylaw meeting I would like to bring another option forward to preserving and protecting Keats Island foreshore.

I am located on Melody Point on Keats island. Being on Shoal Channel I see commercial vessels and large pleasure crafts going very quickly past the point. The wake these boats put off crash violently against the beach and shore. If Islands Trust is seriously looking at protecting the island and its foreshore, a consideration for a speed limit and distance from the shore should be seriously considered and presented to government.

Thank you for your time,

Emily Roberts
