Subject: Fords Cove staff housing project

Good Afternoon, my name is Sara, I am a long time Hornby Island resident. I'm emailing in regards to the fords cove staff housing project. I wanted to say I fully support it, and agree that it is VERY much needed. As a previous Fords Cove Employee who struggled with housing, had to live in a tent and trailer for years would have very much appreciated this back then! It is still in demand. I know many of their current employees would benefit greatly from this. Suitable and stable housing is very important not just for comfort but ones mental health, and physical safety. I'm just one of many whos had their trailer crushed by falling trees in a winters storm. If it wasn't for Matthew and Ronaldo I wouldn't have been able to get through some of my toughest housing situations on Hornby. I greatly appreciate the work they are doing to create suitable and stable housing for their staff members.

Thank you for your time.

- Sara Pelchat.
