Subject: Islands trust PL-TUP-2016-0187 Fords Cove

For many years Hornby Island has had a shortage of living space for workers. Its extremely important that additional housing be created for the people that work and provide valuable services to the Hornby community. Currently many workers live in less than ideal situations. Providing proper housing will help keep these workers on Hornby, and help the whole community.

Thank you for your consideration.

Robert Jack
